WELCOME TO MEXICO
Dear Friends,

On behalf of the Latin American Society of Interventional Cardiology (SOLACI) and the Mexican Society of Interventional Cardiology (SOCIME) it is my pleasure to welcome all our friends and colleagues from Latin American and Mexico and also to our international guests to a new edition of the SOLACI SOCIME 2015 Congress.

Mexico is a country full of traditions and something that has characterized us is the joy and excitement of welcoming our guests. We want each and every one of you to feel at home and happy to enjoy this important academic and intellectual exchange in a friendly atmosphere.

Each year, we experience the participation of some of the most renowned experts and a large number of prestigious colleagues in related specialties who contribute with their vision and passion to further improving our daily practice and developing the specialty. There will also be an excellent program for nurses and technicians who are always so important to our field.

We are confident that we shall be more than satisfied with the quality and complexity achieved in the event, hoping thereby that our patients are the direct beneficiaries of the concepts and ideas that are elucidated here.

On behalf of the Organizing and Scientific Committee, as well as all medical societies that support this conference and all of our sponsors, we very much appreciate your participation, and we wish you a pleasant, fruitful conference.

Dr. Marco Antonio Alcocer Gamba
Congress President SOLACI SOCIME 2015
